## STAFF OF THE PUBLIC HEALTH DEPARTMENT.

---

### **Medical Officer of Health :**

John Petrie, M.B., Ch.B., D.P.H.

### **Senior Sanitary Inspector :**

\*A. J. Williams, M.R.San.I., M.S.I.A.

### **District Sanitary Inspectors :**

\*R. A. Williams, M.R.San. I., M.S.I.A.

\*W. L. Roberts, M.S.I.A.

\*R. H. Street, A.R.San. I., M.S.I.A.

### **Rodent Operators :**

T. Parker.

W. B. Baker.

### **Clerks :**

L. A. Weatherley.

Miss R. Thorpe.

### **Immunisation and Vaccination Clerk (East Sussex County Council):**

G. Hopwood.

\*Certificated Inspector of Meat and other Food.

TO THE CHAIRMAN AND MEMBERS OF THE UCKFIELD  
RURAL DISTRICT COUNCIL.

I have the honour to submit my Annual Report for the year 1948. The report is prepared on the lines indicated in Ministry of Health Circular No. 3/49 dated 17th January, 1949.

**Infectious Diseases.**

The Number of cases of infectious disease notified during the year was some four hundred less than in 1947, this being mainly due to a decrease of 393 in the number of measles cases.

Only four cases of poliomyelitis and polioencephalitis were notified. Three were admitted to hospital and, of these, one died. The cases were notified at intervals over a period of eleven months and in each instance the source was unknown. No contact was established between the cases.

Twelve persons were treated for scabies at the East Grinstead Cleansing Station. Of these, four were actually suffering from the disease and the remainder were members of their families liable to infestation.

**Isolation Hospitals.**

Prior to the 5th July, 1948, cases of infectious disease from this District were sent to the Mid-Sussex Isolation Hospital at Burgess Hill, the hospital being administered by a joint board consisting of members from this and adjoining District Councils.

This hospital is now administered by the Mid-Sussex Hospital Management Committee but arrangements for admissions have not changed.

The advent of the National Health Service has made it possible for infectious disease cases to be sent also to the Kent and Sussex Isolation Hospital in Tunbridge Wells, and patients living in nearby parishes can avoid the long journey to Burgess Hill.

**Diphtheria Immunisation.**

On the 5th July, the clerk engaged full time on the immunisation scheme in this District and the East Grinstead Urban District was transferred to the staff of the East Sussex County Council.

He has remained at the Council Offices in Crowborough for convenience, and the smooth running of the scheme has not been affected by the change-over.

A register is maintained, in as complete a state as possible, of all children resident in this district. It is constantly under revision with information obtained from the Registrar of Births and Deaths, District Nurses, Health Visitors, Head Teachers of schools, both State and Private, and others.

Every parent, on the child reaching eight months of age, receives a card for consent to Immunisation. In cases where this card is not returned, the child is sent a birthday card on its first birthday, and the parent invited, in an explanatory leaflet, to complete and return a stamped acceptance card.

One month after the child's birthday, a personal letter is sent to parents who do not reply and the District Nurse visits parents who refuse treatment or again fail to reply. In cases where consent is still withheld, the immunisation clerk visits with a view to obtaining the necessary acceptance.

A similar procedure is adopted for new entrants to the District, and for school children not previously immunised. Parents of children entering

school at five years of age are advised by leaflet to consent to a re-inforcing injection if immunisation was not done within the previous two years.

An endeavour is made to hold clinics at least every school term in each village, and in the larger villages monthly, parents being notified accordingly. Clinics are held in the elementary schools or at convenient halls, attended by the local general practitioner ; some parents prefer to have the immunisation carried out at the surgery of their family doctor, and this is arranged.

In both the 1-5 and 5-15 age groups the percentage of children immunised has shown an increase on the 1947 figures. The percentages for these groups at the end of the year were 96.6 and 98.5 respectively.

No case of diphtheria has been notified in the District since November, 1946.

### **Insulin.**

For the first six months of the year, insulin was supplied free to five persons in necessitous circumstances in accordance with the terms of Ministry of Health Circular No. 2734 dated 4th January, 1943. The total cost amounted to £17 13s. 0d.

In July, however, these patients were informed that insulin would be available to them free through the National Health Service.

### **National Assistance Act, 1948.**

Under Section 50 of the Act, which became effective on the 5th July, 1948, it is the duty of the Council to cause to be buried or cremated the body of any person who has died or been found dead in the District, in any case where it appears that no suitable arrangements for the disposal of the body have been or are being made otherwise than by this authority.

This duty is performed by the Public Health Department and from the appointed day to the end of the year three burials were arranged.

In each case, the funeral was carried out by an undertaker in the neighbourhood of the deceased's residence, the total cost of the three funerals amounting to £52 0s. 0d. In one case, the sum of £5 5s. 0d. was recovered from the estate of the deceased.

With effect from the 5th July, 1949, the Council may be able to recover part or all of the cost of funerals arranged under this Section in cases where death benefit is payable under the National Insurance Acts.

### **Rural Housing Survey.**

The Rural Housing Survey commenced in 1944 was completed in September, 1948, the total number of houses inspected being 8,474.

The findings of the survey are given in detail in the section of this report devoted to Housing.

I am, Ladies and Gentlemen,

Your obedient servant,

JOHN PETRIE.

*Medical Officer of Health.*

## AMBULANCE SERVICES.

From the 5th July, 1948, it became the duty of the County Council under the provisions of the National Health Service Act, 1946, to ensure that ambulances are available where necessary to convey persons suffering from illness from places in their area to places in or outside their area.

In East Sussex this is being done mainly by arrangement with the St. John Ambulance Brigade, the British Red Cross Society and other voluntary organisations.

A day and night ambulance service is available and calls are accepted from doctors, nurses, midwives and hospitals in the area. Only in cases of accidents or other sudden emergencies are calls accepted direct from members of the public.

Ambulance stations serving parishes in the Uckfield Rural District are as follows :—

<i>Parishes Served.</i>	<i>Ambulance Station.</i>	<i>Telephone Number.</i>	<i>No. of Ambulances.</i>
Buxted (North part) Crowborough Mayfield (North part) Rotherfield Withyham	Caffyns Garage, Beacon Road, Crowborough	Crowborough 532. Mon. to Fri. 8 a.m. to 6 p.m. Sat. 8 a.m. to 1 p.m. At all other times Crowborough 882.	2
Forest Row Hartfield	Sargent & Brookers Garage, East Grinstead.	East Grinstead 678.	2
Hadlow Down Mayfield (South part)	Caffyns Garage, Heathfield.	Heathfield 313.	1
Frant Wadhurst	Monson Road, Tunbridge Wells.	Tunbridge Wells 2840.	3
Buxted (South part) Danehill Fletching Framfield Isfield Little Horsted Maresfield Uckfield	Caffyns Garage, Uckfield.	Uckfield 282.	1

Cases of infectious disease are removed by ambulances maintained at the isolation hospitals.

## SANITARY SUPERVISION.

No. of inspections made under the Housing and Public Health Acts	3,809
No of premises other than houses visited under the Public Health Acts	138
Inspections made of cowsheds, dairies and milk shops	763

## BYE-LAWS RELATING TO HOP-PICKERS.

Fifteen visits were made to hop-pickers' lodgings during the season.

A total of one hundred and two lodgings were provided on the eight farms where imported pickers were employed ; the occupants comprised seventy-nine families, including nineteen males, one hundred and thirty-five females and one hundred children.

Two preliminary notices relating to sanitary defects were served

The following improvements were made to lodgings as the result of earlier representation :—

No. of huts cleansed and limewashed	102
No. of closets improved	4
No. of new huts erected	6
No. of unfit huts no longer in use	2

## FACTORIES.

Seventy-four visits were made to factories during the year. Of these, fifty-one were factories in which mechanical power was used.

## INSPECTION AND SUPERVISION OF FOOD.

### Milk Supplies.

A total of 497 cowsheds and dairies are registered in accordance with the provisions of the Milk and Dairies Order, 1926, the occupiers of which comprise :—

Producers of Milk	...	...	...	...	...	413
Producers and Retail Purveyors	...	...	...	...	...	68
Retail Purveyors	...	...	...	...	...	15
Wholesale Traders	...	...	...	...	...	1

763 inspections were made during the year and 62 informal notices served requiring improvement or repair to cowsheds and dairies. Of these, 39 notices were complied with and the remaining cases will be dealt with during 1949.

The following is a summary of the improvements made :—

New cowsheds erected	...	...	...	...	...	22
New dairies erected	...	...	...	...	...	31
Farm buildings converted into cowsheds and dairies	...	...	...	...	...	11
Cowsheds repaired	...	...	...	...	...	14
Dairies repaired	...	...	...	...	...	5
Cowsheds and dairies cleansed	...	...	...	...	...	18

Of the 244 samples of milk taken from the various retailer's premises, 39 were unsatisfactory. In each case the vendor concerned was informed of the result of the test and the producer's premises inspected. The following table classifies the samples according to the tests made and it will be observed that 1 sample only was found to contain tubercle bacilli. Investigation of this case revealed that the retailer, who was also the producer, sold the animal concerned to a dealer in Kent during the period which elapsed between the taking of the sample and the receipt of the report from the laboratory. Fortunately, the animal was traced and subsequently slaughtered under the supervision of the Veterinary Inspector of the Kent County Council.

No. of samples of milk taken for Bacteriological Examination	...	...	...	...	...	125
Passed Methylene Blue and Coliform Tests	...	...	...	...	...	86
Passed Methylene Blue Test only	...	...	...	...	...	8
Passed Coliform Test only	...	...	...	...	...	11
Failed both tests	...	...	...	...	...	20
No. of samples of milk taken for Biological Examination...	...	...	...	...	...	119
No. containing Tubercle Bacilli	...	...	...	...	...	1

### Milk (Special Designations) Regulations, 1936-1946.

10 Licences were issued to milk retailers, as under :—

To bottle Tuberculin Tested milk	...	...	...	...	5
To retail Tuberculin Tested milk, already bottled	...	...	...	...	1
To retail Accredited milk, already bottled	...	...	...	...	1
To retail Pasteurised milk, already bottled	...	...	...	...	3

5 samples of designated milk were submitted to the Public Analyst for examination, and all were found to be satisfactory.

## ICE CREAM.

### Registration of Premises.

Total number of registered premises :—

For manufacture	...	...	...	...	...	5
For storage and sale	...	...	...	...	...	32
Number of premises registered during the year :—						
For storage and sale	...	...	...	...	...	8

### Sampling.

Number of samples taken during the year	...	...	12
Passed Methylene Blue and Coliform Tests	...	...	8
Failed Methylene Blue Test	...	...	3
Failed Coliform Test	...	...	1

Of the four samples which failed to pass both tests, two were from ice-cream manufactured outside the District. The local authorities concerned were informed of the results of the analyses and the names of the manufacturers.

In the remaining two cases the vendors were advised on the improvements required, and further samples taken later in the year proved satisfactory.

## MEAT AND OTHER FOODS.

During the year, three hundred and forty-six visits were made to butchers' shops and slaughterhouses.

The inspection of meat at the Ministry of Food's centralised slaughterhouse, situated at Uckfield, was carried out by the District Sanitary Inspectors.

The total weight of unsound food surrendered was 6 tons, 5 cwts., 8 lbs.

### Carcases inspected and condemned.

	CATTLE EXCLUDING COWS	COWS	CALVES	SHEEP	PIGS
Number slaughtered	447	139	840	998	155
Number inspected	447	139	840	998	155
<b>All diseases except Tuberculosis</b>					
Whole carcases condemned	—	—	—	5	4
Carcases of which some part or organ was condemned	141	50	—	99	4
Percentage of the number inspected affected with disease other than Tuberculosis	31.54	35.97	—	10.42	5.16
<b>Tuberculosis only</b>					
Whole carcases condemned	1	6	—	—	2
Carcases of which some part or organ was condemned	53	43	1	—	5
Percentage of the number inspected affected with Tuberculosis	12.08	35.25	0.12	—	4.52

Of the 840 calves killed, 74 were heifer calves.

The following tables show that nine carcasses and one hundred and sixty-three parts or organs were found to be affected with tuberculosis, and that nine carcasses and three hundred and twenty-nine parts or organs were affected with diseases other than tuberculosis.

**Tuberculosis.**

2 pkts.	Ryvita	...	...	...	Contaminated by mice
11 jars.	Pickles	...	...	...	Decomposed

## Slaughter of Animals Act, 1933.

Licences for the period ending the 31st December, 1948, were issued in accordance with the provisions of the Act to thirty-four persons to slaughter animals.

## DESTRUCTION OF RATS AND MICE.

The following are particulars of the work carried out by the Council's Rodent Operators during the year :—

<b>Rats.</b>	No. of complaints received	...	...	...	96
	No. of premises infested	...	...	...	84
	No. of infestations found as a result of routine enquiries	...	...	...	375
<b>Mice.</b>	No. of complaints received	...	...	...	21
	No. of premises infested	...	...	...	20
	No. of infestations found as a result of routine enquiries	...	...	...	38
	Total number of visits	...	...	...	3,021
<b>Rats.</b>	No. of premises disinfested	...	...	...	463
	Estimated Kill	...	...	...	2,410
<b>Mice.</b>	No. of premises disinfested	...	...	...	53
	Estimated Kill	...	...	...	552

**Financial Arrangements.**

Subject to the Council's compliance with certain conditions, the Ministry of Agriculture and Fisheries offered to continue for another year from the 1st April, 1948, the consolidated grant of 50% of approved net expenditure incurred on the maintenance of rodent control. The Council accepted the offer.

Commercial and industrial premises, with the exception of those occupied by the Council, do not qualify for grant-aid, the intention being that any expenditure should be fully reimbursed by the occupiers and that no part should fall on public funds. From the 1st April, 1948, therefore, occupiers of business premises have been charged the actual cost of labour and materials used.

Occupiers of private dwelling-houses pay a modified charge based on the number of poison points laid.

**Sewer Rat Treatment.**

The thirteen separate sewerage systems in the District were test-baited during the months of June to September and were found to be free from rats with the exception of the Groombridge and Uckfield sections, which were slightly infested. The necessary treatments were carried out, and completed by the end of the year.

**Refuse Tips and Sewerage Works.**

Inspections are made of the Council's two refuse tips and ten sewage works at regular intervals, and treatments carried out where necessary.

**ERADICATION OF INSECT PESTS.**

The work of eradicating insect pests with D.D.T. solution and powder was carried out during the year by the Rodent Operators under the supervision of the District Sanitary Inspectors.

Details of the work are as follows :—

**Bugs.**

No. of premises disinfested	...	...	...	...	3
No. of visits	...	...	...	...	5

**Fleas.**

No. of premises disinfested	...	...	...	...	6
No. of visits	...	...	...	...	11

**Flies.**

No. of premises disinfested	...	...	...	...	16
No. of visits	...	...	...	...	26

**HOUSING.**

**Inspection of Dwelling Houses during the year.**

1.	(a)	Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts)	...	...	2,131
	(b)	Total number of inspections made for the purpose	...	...	3,809
2.		Number of dwelling houses (included under sub-head 1 above) which were inspected and recorded	...	...	167
3.		Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation			13
4.		Number of dwelling houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	...	...	191

**Remedy of Defects during the year without Service of Formal Notice.**

Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or its officers	...	...	...	...	...	...	...	...	128
---	-----	-----	-----	-----	-----	-----	-----	-----	-----

**Action under Statutory Powers during the year.**

1.	Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936 :—	
(a)	Number of dwelling houses in respect of which notices were served requiring repairs	Nil
(b)	Number of dwelling houses which were rendered fit after service of formal notice—	
	(i) By owners	Nil
	(ii) By Local Authority in default of owners	Nil
2.	Proceedings under the Public Health Acts :—	
(a)	Number of dwelling houses in respect of which notices were served requiring defects to be remedied	22
(b)	Number of dwelling houses in which defects were remedied after service of formal notice :—	
	(i) By owners (including compliance with notices served prior to 1st January, 1948)	27
	(ii) By Local Authority in default of owners	Nil
3.	Proceedings under Sections 11 and 13 of the Housing Act, 1936 :—	
(a)	Number of dwelling houses in respect of which Demolition Orders were made	9
	Note : In 5 cases undertakings were given by the respective owners not to use the premises for human habitation until rendered fit to the satisfaction of the Council.	
(b)	Number of dwelling houses demolished in pursuance of Demolition Orders	2
(c)	Number of dwelling houses rendered fit following undertakings given after service of a Time and Place Notice—Section 11	1

**Repairs and Improvements.**

The works of repair and improvement enumerated below were completed during the year :—

**INTERNAL.**

Dampness in floors remedied	...	...	...	...	...	27
Dampness in walls remedied	...	...	...	...	...	33
Floors relaid or repaired	...	...	...	...	...	39

Systems repaired or improved	...	...	...	...	...	...	...	28
Systems cleansed	...	...	...	...	...	...	...	18
W.C's provided	...	...	...	...	...	...	...	40
W.C's repaired, cleansed or ventilated	...	...	...	...	...	...	...	16
W.C's flushing apparatus provided or repaired	...	...	...	...	...	...	...	36
E.C's converted to W.C's	...	...	...	...	...	...	...	21
E.C's repaired or improved	...	...	...	...	...	...	...	4
Miscellaneous repairs or improvements	...	...	...	...	...	...	...	7

#### New Houses.

During the year, one hundred and eight new houses were erected by the Council and forty-four by private enterprise.

#### Conversions.

Eighteen dwelling houses were converted to accommodate twenty-eight family units.

#### Requisitioned Properties.

Two properties were requisitioned during the year and converted to accommodate eight family units.

## RURAL HOUSING SURVEY.

The survey into housing conditions within the District was completed during the year in accordance with the recommendations of the Hobhouse Report and Ministry of Health Circular No. 64 of 1944.

The object of the survey was to provide a record of the condition of every "working class" house in the District as a basis for a programme of improvement to be carried out over a period of years. The survey was limited to dwelling houses with a rateable value of £20 and under.

The classification of dwelling houses recommended by the Rural Housing Sub-Committee of the Central Housing Advisory Committee was as follows :—

CATEGORY	CONDITION OF DWELLING	NORMAL ACTION
1	Satisfactory in all respects.	No action.
2	Minor defects.	Informal action or Public Health Acts.
3	Requiring repair, structural alteration or improvement.	Section 9 or Section 11 Housing Act, 1936. Acquisition by local authority in appropriate cases.
4	Appropriate for reconditioning under the Housing (Rural Workers) Acts.	Housing (Rural Workers) Acts. Section 11 Housing Act, 1936. Acquisition by local authority in appropriate cases.
5	Unfit for habitation and beyond repair at reasonable expense.	Section 11 (individual houses). Section 25 (Clearance Areas) Housing Act, 1936.

It is considered that useful information would be obtained by subdividing these categories.

In the following tables, therefore, category 3 has been divided to show in (a) and (b) those houses which would be subject to action under Sections 9 and 11 respectively of the Housing Act, 1936. Houses included in category 3(b) are those which are beyond repair at reasonable expense in normal circumstances, but which are structurally capable of reconditioning should the matter of expense be of less importance than the provision of a house, as is frequently the case during the present housing shortage.

In category 4 are agricultural cottages already included in category 3 under the same subdivisional headings.

In category 5 are 136 houses suitable for early demolition and these have been divided to show under (x) agricultural cottages and (y) other dwellings.

When the present restriction on the demolition of dwelling houses is removed, these houses will be dealt with under Section 11 of the Housing Act, 1936.

Table 2 contains the same information in respect of the various parishes.

## RURAL HOUSING SURVEY — TABLE 1.

Total number of separate Dwellings inspected	...	...	...	8,474
<b>Category 1.</b>				
Satisfactory in all respects	...	...	...	1,115

## WATER SUPPLIES.

Three hundred and thirty-three dwelling houses were connected to the water-mains during the year.

Extensions to existing mains were made in the parishes of Danehill, Framfield and Hartfield.

Monthly samples of water were taken for bacteriological and chemical analysis from the mains supplies of all Companies which operate in the District viz :—

The Borough of Royal Tunbridge Wells.  
The Crowborough District Water Company.  
The East Grinstead Gas and Water Company.  
The East Surrey Water Company.  
The Uckfield Rural District Council.

All these supplies are chlorinated and are adequate in amount.

A survey to establish a “ public health need ” for a piped water supply was carried out in Underhill, Maresfield, and the Uckfield Rural District Council’s main has subsequently been extended to that area.

The following table gives details of samples of water taken for analysis from wells and springs supplying private dwelling houses :—

No. of samples taken for bacteriological analysis	...	...	...	46
No. of samples reported satisfactory	...	...	...	16
No. of samples reported unsatisfactory	...	...	...	30
No. of houses connected to the water main following formal action				
by the Council	...	...	...	2
No. of houses connected to the water main following informal action				
by the Council	...	...	...	18
No. of wells repaired following informal action by the Council	...	...	...	8

## SEWERAGE AND SEWAGE DISPOSAL.

An extension to the Council's sewer was made in the Alderbrook area of Crowborough.

Suggested sewerage schemes affecting Five Ashes, Fairwarp, Frant and Wadhurst (Best Beech) have been considered and submitted to the Minister of Health for approval.

## SALVAGE.

The scheme for the collection of salvage in the District has been carried out successfully during the year, and the Surveyor to the Council has supplied the following interesting record of the materials collected and sold.

### Salvage—Sale of Materials for the year ending 31st December, 1948.
